All That Glitters
Not Trusting the Senate
Gold in Russian Hills
Pullman Bonus Plan.

By ARTHUR BRISBANE
ALL THAT GLITTERS is not gold. The new Shakespeare has it. It is not gold that glitters. Whenever you put it, the late Mrs. Nierlinger would agree. She was violently interested in a little lady whose admirable character won the title of "Miss St. Louis" in a beauty contest. He married her, promising to make her famous all over the world. The little lady has just shot and killed him at Nice, in France, telling the police he accused her of having an Italian lover and showing cruel finger marks on her throat.

French justice will attend to all that. We remind young gentlemen, all the beauty of the world, "tis but skin deep," and you never can tell what you will find a little deeper. A plain, old-fashioned girl, with a white dress, a blue sash and a ribbon or a hair comb in her hair, is perhaps the safest prospect, even though she may not be "Miss Anybody."

OUR GOVERNMENT you are told, is some way of doing what Great Britain wants done about Germany, without submitting the matter to the United States senate. When you have a government that will not give the senate an opportunity to express its opinion, you know there is something wrong with the government or the senate, or both.

Yet read also that the British are alarmed by French plans to build a powerful submarine fleet, regardless of any navy pact. We take the orders of Britain and pretend to like them. But the French, unlike us, are not polite and they are logical. They have just finished one war, having the brute while England was getting her men ready. They don't mean to have another such experience, and will keep submarines enough to sink anything that floats. In addition, they have the most powerful fighting air fleet in the world.

WHILE THIS COUNTRY wonders whether the Russians are quite good enough to do business with, Germany sends 17 of her biggest industrialists on a trip through Russia. Those gentlemen have back orders for about \$75,000,000 worth of goods, and it is believed that Russian sales in Germany for the current year will amount to \$200,000,000, which Germany considers worth having.

THE PRESIDENT of the Pullman company, D. A. Crawford, has arranged for Pullman car conductors to earn "extra money." They will get commissions on sales of upper berths, sales of a whole section to one traveler on favorable terms, also an allowance for convincing passengers that they want better accommodations than those reserved.

This will start salesmanship among Pullman conductors, increase the incomes of many, and perhaps promote a similar profit-making elsewhere. It pays to give men a cash interest in their work. Mr. Crawford became head of the Pullman company suddenly, on the death of his predecessor, Mr. Carry, at the very peak of prosperity. Suddenly the bottom dropped out from under, but he proposes to establish a new bottom.

WASHINGTON officials say the "bonus money" will soon be spent for NEW goods, little of

CITY SPENDS \$17,500,000 IN RETAIL STORES

Federal Census Bureau Releases Report for 1929 on Business Here.

1,393 GIVEN EMPLOYMENT

Automotive Group Leads List; Food and General Merchandise Follow.

Retail business in Marion in excess of \$17,000,000 is shown by the federal census bureau in the release today of the returns from the 1929 distribution census taken here last spring under the supervision of Frank Berry, district census supervisor. The returns were sent here from the federal bureau.

The bureau reports 424 retail stores with a total annual business of \$17,429,623, a yearly payroll of \$1,802,280, and the full-time employment of 1,393 men and women. These figures are based upon reports received in 1930 covering the year 1929.

Types of Stores
The reported number of employees does not include those working part time although the payroll of part-time employees is included in the salaries and wages.

Merchandise in stock for sale at the end of 1929 showed a cost value of \$2,632,503. The total of 424 stores includes 320 single-store independents, 17 units of two-store multiples, and eight units of three-store multiples. There are also 18 units of local chains, 16 units of sectional chains, and 39 units of national chains.

Sales of these three types of chain organizations aggregate \$3,704,428, or 21 per cent of the total retail business, while sales of the single-store independents amount to \$11,456,802, or 66 per cent.

Leased departments reported by department stores and included in the figures submitted by them are not counted as separate establishments. Those reported independently by their proprietors are shown as separate establishments. There are four units of leased department chains in Marion.

Auto Firms First
The automotive group takes the lead in this report with the food group second, and the general merchandise group third.

Police Ask for Donations To Buy Riot Gun

The equipment of Marion police department will be augmented by the addition of a machine gun rifle, if efforts of Night Captain Ira Shrock to raise \$175 by popular subscription are successful.

Handicapped by the shortage of city funds in every department, the police department has no available money for new equipment. Popular subscription was the only available means of raising the necessary \$175, according to Captain Shrock.

The department lacks equipment to meet any one of a number of emergencies that might occur. Captain Shrock said. Knowing the department is better prepared to meet an emergency with a modern fire arm, criminals will be discouraged from picking Marion for a bank robbery or other crime. In the opinion of Captain Shrock.

Subscriptions are being taken by several individuals and at Market & Lewis cigar store. Numerous contributions have been made in the three days they have been taken.

A suitable type of gun can be purchased for \$175 and can be improved by the purchase of a special cartridge holder for several dollars more, Captain Shrock said. The gun proposed for purchase is built for use as a rifle and is not mounted on a tripod.

UNIVERSITY SENIORS THREATEN WALKOUT

Suspension for Liquor Drinking Cause Tense Situation in Minnesota.

By The Associated Press.
ST. PAUL, Minn., March 13.—More than 100 seniors at the University of Minnesota today threatened to "walk out" of commencement exercises March 25 unless 13 of their fellow classmates, suspended for liquor drinking, are allowed to graduate. The 13 were among 17 students at the school involved in suspensions.

While the campus seethed with indignation over what students termed "unfairness," preparations were made to launch a legislative inquiry into the circumstances of the case today.

Two investigations may be started by the law makers—one into the general liquor situation at the University of Minnesota, situated in Minneapolis, and the other into the suspensions at the local institution, which is an agricultural high school branch of the university.

University authorities declined to discuss the matter but students said all had been called before the principal and asked whether they drank liquor. The 17 who admitted they did were suspended.

The chief protest heard today against the principal's action was that, although all the youths had completed their examinations and awaited only their diplomas, they would not receive their sheepskins unless they are readmitted.

In informal conferences last night, the other 108 members of the senior class said they would not attend baccalaureate services Sunday nor the commencement exercises March 25 unless the 13 are reinstated.

By United Press.

RALLS COUNSEL FILES MOTION FOR NEW TRIAL

Attorney for Convicted Criminal Negro Slayer Fights To Save Client's Life.

MARCH 23 SET FOR HEARING

Prisoner Is Second To Face Death as Result of Killing Sheriff.

Special to The Star.
BUCKRUS, March 13.—Motions for a new trial and arrest of judgment were filed today by Attorney Louis Kreiter a few hours after a Crawford county jury found his client, Blanton Ralls, 19-year-old Crestline Negro, guilty of first degree murder. The verdict without recommendation of mercy, was returned late yesterday after the jury had deliberated for five hours Monday at 9 a. m. March 23, has been set for the hearing of the motions.

Last week Walter Ralls, uncle of Blanton, heard a similar verdict in payment for the slaying of Sheriff George Havenport last Jan. 23. Blanton Ralls, brother of Walter and the third man to be charged with the sheriff's death, was shot and killed as he tried to escape officers the day after the slaying.

The three were accused of arming themselves and defying the sheriff when he and a deputy went to their home to arrest them on chicken stealing charges. After the sheriff slumped to the floor, fatally wounded, the trio surrendered.

The prisoner was extremely pale and somewhat nervous when he was brought into the courtroom to hear the verdict.

In his closing arguments delivered early yesterday afternoon, Prosecutor Sears demanded the death verdict as he did in the case of Walter Ralls and emphasized the contradictory testimony offered by the witness on the stand.

Sears' argument was followed by Elmer Lutz, counsel for the defense who pleaded for mercy for his client, dwelling upon his early life and lack of training.

The case was heard by a jury composed of two women and 10 men.

CLEVELAND WOMAN IS BEATEN AND SLAIN

Police Seek Estranged Third Husband of Attractive Blond Victim.

By The Associated Press.
CLEVELAND, O., March 13.—The body of Mrs. Marguerite Yaratch, 28, an attractive blond who had been married three times, was found early today in a deserted spot of the southwestern part of the city where she had been beaten and shot to death.

Police, searching for the woman's estranged husband, Leo, 24, said his relatives reported he came to their home at dawn declaring "I've just killed my wife. Help me get out of town."

Detectives also said they identified a gun found near her body as belonging to Yaratch.

Mrs. Yaratch, police said, evidently was walking home from the telephone exchange where she was employed when she was killed. She was beaten about the face and a bullet pierced her lungs. Her body was discovered less than three blocks from her home.

Mrs. Marguerite Bone, mother of the slain woman, said her daughter had married Leo Yaratch, 24, about 11 months ago, but that the pair had been separated for some time.

ASKS 540 MERCHANTS TO CIVIC MEETING

Dr. Carl W. Sawyer Plans Discussion as Part of City Booster Move.

With Marion's present and future welfare the principal topic for discussion in all of Marion's 451 organizations, and a varied assortment of answers to a civic questionnaire pouring into his office daily, Dr. Carl W. Sawyer next Tuesday night will hold a meeting similar to that held March 5 for the heads of all Marion organizations.

The movement, now in its infancy, will first attempt to learn the theory of every group, business and professional man on Marion's present situation, what will better Marion, and what plans should be adopted for the city's future.

The boost Marion movement is the outgrowth of a meeting of 32 civic leaders in January to discuss what might be done to better the city. The group named Dr. Carl W. Sawyer its chairman. He is now attempting to identify and diagnose the city's ills in preparation for an attempt to remedy them and better the city in any possible way.

INDICT TWO MARION MEN

Wyandot Grand Jury Returns Bills Against Manager, Collector.

LOCAL STORE EMPLOYEES Charged with Impersonating an Officer by Former Customer.

Indictments on charges of impersonating an officer were returned by a Wyandot county grand jury yesterday against S. B. Friedman, formerly manager of a local credit clothing store, and W. V. Lynch, a collector for the same store.

The action came before the grand jury after the men had been bound over to the justice court of E. E. Widdow of Upper Sandusky Feb. 6 on bonds of \$500. Charges were filed against the men after they attempted to collect an account of \$85.40 from Mrs. Harriet Cunningham, formerly of Marion and now a resident of Upper Sandusky.

At a hearing before the justice Feb. 6, it was alleged that the men went to Upper Sandusky from Marion to collect the account from Mrs. Cunningham who was then residing with her aunt in Upper Sandusky.

While attempting to collect, the men, it is charged, represented themselves to be officers. The indictment charges that the men falsely represented themselves to be deputy sheriffs or constables.

No date for the arraignment of the men in common pleas court at Upper Sandusky has been set. The grand jury returned 11 true bills yesterday, six of which were returned against Friedman and Lynch.

Twenty-five witnesses were examined and five cases were ignored. Besides the indictment returned against Friedman and Lynch, true bills were returned against Bill Risner, Guy Stone and Lloyd West for burglary; Lloyd Whitaker for larceny; E. M. Beck for issuing a questionable check and Ross Johnson for embezzlement.

The grand jurors were Joseph Brown, foreman, Mrs. James Van Gundy, Fred Seifert, Eugene Coon, Mrs. Keith Van Burgh, Mrs. T. R. Rangler, Wilfred Logsdon, Floyd Cross, Mrs. George Ellis, Mrs. Charles Adams, Adolph Veith, Nelson Balliet, C. D. Sheridan, G. B. A. Ranck and W. W. Scheidegger.

PRESIDENTIAL RACE IS GIVEN EARLY START

Independent Spokesman Norris Opens with Call for Election of Progressive.

CONFERENCE AT END

Democrats Also Discuss Plans for 1932 and C. O. P. Will Start Soon.

By The Associated Press.
WASHINGTON, March 13.—The national political campaign culminating in the 1932 presidential election was under way today propelled by a second conference of political leaders in as many weeks.

Election of a "progressive president" was called for yesterday by Senator Norris, Republican of Nebraska, in concluding the last meeting of election potent—the two-day progressive conference over which he presided.

The unusually early popping of political phenomena has occurred in the three distinct groups—Democrats, Republicans and Independents. It has gone far already in defining issues developing candidates.

Issues Outlined
Prohibition, power, unemployment and the tariff stand out as issues projected from the early swirl of conferences and maneuvers.

As for candidates, President Hoover, titular head of the Republican party, is unchallenged so far within the regular ranks and the Republican national committee has centered its efforts in support of his administration.

There are a host of Democratic possibilities, including weta and drya. Progressive leaders entered their attacks upon President Hoover and made it plain he was not acceptable. Turning to the Democrats, Senator Norris warned that the platform chairman Raskob submitted to the Democratic national committee last week was unacceptable as any candidate sponsoring it.

Against Third Party
Norris again declared a third party futile and his remarks were interpreted as a plea to Democrats for a candidate of "progressive" stamp. His declaration that "we need another Roosevelt in the White House" stirred prompt gossip, but Norris, with a smile, later said he had not "thought" of Governor Roosevelt, Democrat of New York, in making that statement.

Democratic activity is centered on the platform chairman Raskob presented to the national committee and on which he will ask a decision in December. His recommendation for state liquor control in favor of national prohibition drew criticism from Democratic congressional leaders who are fearful of a party battle over this controversy.

Senator Robinson of Arkansas, Governor Ritchie of Maryland, and Senator Lewis of Illinois have been formally entered in the Democratic presidential contest by their followers.

But Democracy claims a host of progressive presidential candidates. Two New Yorkers—Governor Franklin D. Roosevelt and Owen J. Young—with Alfred E. Smith, the 1928 nominee, enter the discussion along with Senator Glass of Virginia, Newton D. Baker, James M. Cox, and Senator Bulkeley of Ohio, and a number of others.

G. O. P. Action Coming
Republicans have stood aside as the Democrats and then the progressives met. However, Chairman of the Republican national committee, will get into "high gear" before long.

Anyway, the race is on—a year anyway, the race is on—a year with considerable vim.

"Yes — I ought to have a new suit — this one looks like the wreck of the Hesperus — that's the trouble with poor clothes — and that's the trouble with me — I like nice things, but I don't like to pay the nice prices.

"I see the stores are all advertising new Suits and lower prices — they say good clothes cost less now—I wonder how much — or if that's just a lot of advertising talk.

"Well — there's one way to find out — I can drop into Kleinmaier's and see — for there's one thing I'll have to give that store — you can depend on what they tell you — yes, and what they sell you, too."

Also built on the inner-spring principle that assures so much of luxurious comfort. Resilient, continually "giving" coil springs are enclosed in the good looking coverings of this very special value.

Mt. Gilead Club Host to Teams; Bacon Presents Guest Speaker

Football and basketball official and player, introduced the principal speaker, Ray Dietrich, basketball coach at Ohio Wesleyan university.

"As a man playeth so shall he live," said Mr. Dietrich. "It is only necessary to watch the reactions of a player in a game to understand how he will live after he gets out of school. If he questions decisions or sneers at the officials or like offenses in later life. A true analysis of the players can be made from their actions in a game."

Dietrich is a member of the basketball rules committee and he announced that a real attempt to eliminate sailing will be made by changing the rules. One proposal is the elimination of the dribble and not allowing the ball to be returned to the floor. Another change contemplated is the elimination of the center jump by placing the ball in play under the basket of the team last scored upon.

The death of girl's basketball is regrettable he said and added that it was being brought about by the teams refusing to play strictly girls rules with three division courts. Next year there will be no county tournaments for girls in Ohio he said.

"One of the greatest evils in the high schools today is the practice of pushing athletes through without proper preparation in order to keep them eligible for competition."

New cereal Helps school grades

Authorities know that many children fail to eat a balanced breakfast. They fail to get a sufficient variety of mineral salts and vitamins. As a result, they are nervous, susceptible to colds and simply cannot do their best work at school.

Mothers everywhere welcome Kellogg's WHOLE WHEAT BISCUIT. A cereal that is unusually delicious with milk or cream—and supplies 10 mineral salts and 5 vitamins. In fact, one serving supplies more than a third of the average child's daily mineral requirement.

Kellogg's WHOLE WHEAT BISCUIT is a delicately flavored and double toasted. Ready to serve. Two biscuits just fit bowl. Extra delicious for lunch, for the children's supper—between meals and bed-time snacks.

Every red-and-green package is certified for food value. You get abundant calcium, phosphorus, iron, copper, chlorine, protein, vitamins. Sold by your grocer. Made by Kellogg in Battle Creek.

MAKE A 30 DAY TEST

Economy in buying at any particular store cannot be fairly judged by merely comparing the cost of a number of single items. A fair comparison can only be made by comparing your total bill over a period of time.

We suggest that you buy all your groceries for a thirty-day period of time from a Serv-U-Wel Market and compare your bill for that period of time with that of any other store. You will find the excellent quality of foods and the fine service that you receive from a Serv-U-Wel Market as well as the reasonable prices.

WHAT MAKES
PEOPLE MOODY?

Do you know that our health and our moods are closely related to intestinal cleanliness?

When the system is clogged by constipation, poisons are generated. Often these bring on headaches and listlessness. You feel blue, or become irritable.

The poisons of constipation frequently aggravate nervous troubles, rheumatism, high blood-pressure and heart trouble.

Yet constipation can be overcome by eating a delicious cereal: Kellogg's ALL-BRAN. Two tablespoons daily are guaranteed to relieve both temporary and recurring constipation.

Try it with milk or cream. Use in cooking too. Cookies on the red-and-green package. ALL-BRAN also supplies iron for the blood. At all grocers. Made by Kellogg in Battle Creek.

The Stars Say--

For Saturday, March 16

A DAY of much exhilaration and probably excitement may be looked for, judging by the array of stellar forces of dynamic quality. The mind may be highly keyed and alert, and the energies inclining to vigorous if not violent measures of attaining the ends of ambition. It would be wise to be discreet and self-restrained lest too acute an expression of these forces prove annoying and frustrating. With care and proper direction substantial progress may be expected.

Those whose birthday is under the promise of a day of splendid initiative and achievement, with the faculties and forces under high stimuli, may progress of a stable nature be made if a tendency to rash and turbulent action is properly subdued. Return from disputes and push advantage through writings. A child born on this day should be active, enterprising and splendid intellectual equipment, with much constructive energy, but it should be disciplined in control of tongue and temper lest these prove its undoing.

polish
silverware
without
rubbing

BY MARY LEE WORK

A new quick way to
CLEAN silver, to make
two other jobs easy

There is now a simple new way that cleans silver without rubbing—and yet makes it look as if a professional silversmith had cleaned it! You don't even touch a cloth to it—just immerse it in a pan of water a few minutes.

In this way, you clean all your table silver in an instant—clean a complete silver service just as quickly.

It is a preparation called Climlene that you get for 10c a package (12-oz.) at any grocery store. Use according to directions below.

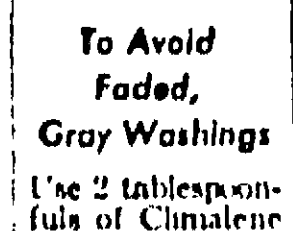

It makes many other hard jobs easier—removes bathtub ring without rubbing—cuts dishwashing time in half.

Thousands of women are using it now. It saves hours of work for them every day. Try it—these three ways.

To Clean Silver
Without
Rubbing

Add one teaspoonful of Climlene to 2 qts. of water in an aluminum pan. Immerse the silver—bring it to a boil. Then rinse silver and wipe it dry. That is all. All signs of tarnish disappear. Even the most intricate and highly embossed silver patterns are perfectly cleaned.

To Avoid
Faded,
Gray Washings

Use 2 tablespoonfuls of Climlene and 1/4 the usual amount of soap. Clothes emerge soft, spotless, utterly without fading. For soap fade and soap eat are ended this way. In recent tests, men's blue shirts were washed 75 times, without noticeable fade; sheerest French lacy 100 times and more—to prove the blandness of this way.

Banish
Bathtub
Ring

Add a tablespoonful of Climlene to your bath water. Soap makes a quick, rich lather. After the bath—just rinse the tub. That is all. There just isn't any "high-water" mark. No scrubbing; no rubbing.

Why It Cleans

Climlene instantly takes all the harshness out of lake water, medium hard water, and hard water. Makes it soft and gentle as rain water. So soft it does the work with 1/4 the soap you now use. At the same time, due to certain bland cleansing agents, it instantly dissolves all grease, dirt and grime, and thus cuts your working time 1/4 or more, in washing, cleaning and in the dishpan.

Now...Shell makes it possible for motorists to save MILLIONS

See, on this chart, what Shell has done... It may cut down your driving costs many dollars

How many motorists need to get utmost efficiency from their motors?

With so many types of gasoline on the market, and with such a confusion of claims for them, the motorist has been bewildered.

Shell does not want to sell premium gasoline for engines that do not need it. As a matter of good business, Shell believes it pays to give motorists what they ought to have.

Shell is now ready to supply gasoline—at regular prices—which more than 75% of all cars can use with perfect satisfaction. A unique new gasoline which marks a great step forward in motor fuels! The New Improved Shell 400.

In anti-knock value New Improved Shell 400 is far above common gasoline—and above many premium priced brands.

At least 3 out of 4 motorists can use it—and forget any question of paying an extra 3 cents per gallon. This New Improved Shell 400 will give them full anti-knock value, quick starting and power, at a real money saving.

For the less than 25% that need even greater anti-knock value, Shell has perfected Super-Shell Ethyl. It is volatile, lively—a high-test, "scrubbed" gasoline plus genuine Ethyl.

To owners of cars that need it, there is new smoothness, and a real money saving, in Super-Shell Ethyl. More mileage. Lower motor upkeep.

Take advantage of these new fuels. Test New Improved Shell 400 in your own car. 75% will find they can save real money by using it. If your car needs Super-Shell Ethyl, your station man will tell you. Ask about the nation wide mileage test.

A GREAT STEP FORWARD IN MOTOR FUELS

At last, a measuring unit for anti-knock values—the new Octane Number ratings! The highest Octane Number required by 75% of all cars is 58. New Improved Shell 400, at regular price, exceeds this figure—tests about 60. It is ideal for 75% of cars

NEW IMPROVED SHELL 400

Definitely better than many present premium fuels, yet sold at regular prices—at least 75% of all cars can use it satisfactorily

SUPER-SHELL Ethyl

For the less than 25% of cars which require an extremely high anti-knock value to operate most efficiently. Priced three cents more per gallon

CONVICT TWO FOR MURDERS

Hitch-Hiking Practice Figures in Convictions in Indiana and Kentucky.

By The Associated Press
BARDSTOWN, Ky., March 13.—Heartened by the length of the deliberations, only to hear the jurors pronounce a penalty of death in the electric chair, Frank Carson of Detroit nearly collapsed when being led to his cell last night after his conviction of the murder of Carl B. James of Louisville.

The jury deliberated two hours before reaching a verdict in Carson's second trial. The first jury disagreed, nine voting for the death penalty and three for life imprisonment. Counsel for Carson said the verdict would be appealed.

James, general development agent for the Louisville & Nashville railroad and former professor at Western Reserve university in Cleveland, was shot to death after he and his wife had given Carson and Anthony Peterson of Detroit an automobile ride, Feb. 23.

Mrs. James identified Carson as

ANOTHER HOME-RUN BABE

And now it's Miss Julia Ruth (extreme left), daughter of the Sultan of Swat, who has scored heavily with her charming costume at the Beaux Arts Ball at St. Petersburg, Fla. With her are Miss Maxine Asher (center) and Miss Adeline Asher. All are wearing old-fashioned flower girl costumes.

the man who fired the fatal shot. Peterson's trial on the same charge was docketed for today, but court officials said it probably would be continued, since the term of Nelson circuit court ends Saturday.

The officials were notified yesterday that Carson and Peterson are wanted in Detroit under other names on charges of attacking a young girl and of complicity in 11 holdups.

ADMITS MURDER

Alabama Man Faces Long Term in Indiana Prison.

By The Associated Press
INDIANAPOLIS, March 13.—Convicted of voluntary manslaughter for the death of an unknown hitch-hiker whose body he admitted burning in his automobile near here, last May, Harold Herbert Schroeder of Mobile, Ala., today

faced a 2 to 21-year term in the Indiana state prison.

Judge Frank P. Baker, who presided at the trial, will pronounce sentence Monday.

The verdict was reached by a jury after three hours, 35 minutes deliberation.

Ira M. Holmes, defense counsel, announced he will not file any motions to set aside the verdict, but said he would confer today with Schroeder's relatives.

Prosecutor Herbert E. Wilson said he believed Schroeder will have to serve the entire 21-year maximum term. He explained a new rule adopted by the state prison board provides that no one convicted of voluntary manslaughter can be released before his maximum term unless the parole application is signed by the prosecutor. Wilson declared he would never sign such an application for Schroeder.

N. Y. MAYOR FACES BATTLE

Head of Civic Group Prepares To File Charges Against Walker.

By The Associated Press
NEW YORK, March 13.—John Haynes Holmes, clergyman and chairman of the city affairs committee, a citizens' organization, announced today he would file with Governor Roosevelt specific charges against Mayor Walker, involving "incompetence, gross neglect and indifference to the welfare of the city."
Rabbi Stephen S. Wise, vice-

chairman of the committee, said he favored waiting until the mayor returned from California and that a decision would be made by the committee today.
A committee of the directors of the Greater New York Federation of Churches has adopted a resolution demanding a non-partisan, city-wide investigation "that shall reveal both the innocent and the guilty." Copies were sent to Governor Roosevelt and members of the legislature.
The revelations of the past few weeks concerning the conditions that obtain in this city have shocked the moral sense of the community," the resolution read. "There have multiplied charges of crime which have gone unpunished, of graft and bribery found even among those sworn faithfully to administer our laws, and of widespread civic corruption which have

undermined the confidence of the people."
The Socialist committee on public affairs, headed by Thomas and Morris Hillquit, leaders of the Republican and Democratic parties, urged a tri-party investigation sponsored by the legislature conducted by representatives of three parties.

DISCUSS LIMA PLAN TO AID INDUSTRIES

Chamber of Commerce Heads
and Business Leaders
Study System.

A plan used successfully by the Lima Chamber of Commerce to finance the location of industries in that city was the subject of a meeting of directors of the Marion Chamber of Commerce and representatives of Marion financial institutions at the club last night. Several plans for production of industries in Marion were discussed in detail and explained by representatives of the Lima Chamber. A similar setup be adopted here, the group backing it was known as the Marion Industrial Foundation. A meeting was called to discuss the possibility of operating the plan in Marion. Those present expressed their favor of a plan of this nature whereby a pledged fund would be available at all times to

assist in the financing of industries interested in locating.

The Lima plan was explained in detail by Warren McLaughlin, executive vice president of the Lima Chamber of Commerce, and Homer H. Hughes, also of Lima. The meeting last night was attended by 20 men, and presided over by Karl W. Schell.

Suspect Foul Play in Death of Oxford Man

OXFORD, O., March 13.—The body of Lawrence Williams, 47, part owner of the West End Taxi company here, was found on the tracks of the Cincinnati, Indianapolis & Western railroad here today. A train had severed it. Coroner Edward Cook, after an examination, expressed the belief Williams had been killed, robbed and his body placed on the tracks. Members of the train crew said the body was cold when they reached it, indicating Williams had been dead for some time.

Penn Track Star After Third Consecutive Crown

By The Associated Press
CHAMPAIGN, Ill., March 13.—Barney Berlinger of Pennsylvania, the most versatile track performer in the land, will seek his third straight Illinois relay carnival all-around championship tomorrow—and barring accidents or the appearance of a super-athlete, seems certain of it.

The strapping Penn star will be right at home in four of the seven all-around events and can do well

enough in the others to assure himself of victory under ordinary circumstances. He tosses the 16-pound shot more than 45 feet, pole vaults better than 13 feet, high jumps around 6 feet, 2 inches, and has bettered 23 feet in the broad jump.

He won the event in 1929 and came back last year to set a new record of 6,070 points, and with competition, has a chance to improve the mark a second time. His opposition is expected to come from Everett Utterback, Pittsburgh Negro star, who finished second last year, and Douglas of Grinnell, winner of fourth place in the 1930 event.

The meet, the blue ribbon indoor relay offering of the country, has

drawn an entry list of nearly 700 athletes representing 38 universities and colleges, including a number of defending title holders. The Big Ten will be minus Purdue only, while the Big Six, Missouri valley and Little Nineteen conferences will be represented. The south, east and southwest have entered scattering candidates.

Notre Dame is favored to take the two-mile relay again, and Marquette rates as the choice to make

it two in a row in the medley. Missouri was withdrawn from the mile relay which it won so impressively last year, because of illness of two members of its team.

CINCINNATI, March 13.—"The gas is on. I'm getting weak—I'm

Miss Wood was found dead by her sister, Retta.

HOLD TWO SUSPECTS IN MURDER OF GIRL

Authorities Increase Efforts
To Locate Slayer of California School Child.

By The Associated Press
SAN DIEGO, Calif., March 13.—With two suspects held in widely separated cities and criminologists arriving from Sacramento and Los Angeles, officers today increased their efforts to find the slayer of 10-year-old Virginia Brooks.

The shop in which a tire on the killer's automobile had been re-treaded was found and an effort was being made to trace all tires handled recently by the shop. The design used checked with a plaster cast made of an imprint at Camp Kearney Mesa, where the school girl's dismembered body was found in a sack Tuesday.

Jerry L. Davis, 21, shepherd, sentenced at Salinas, Calif., for burglary, was questioned closely after he had urged his speedy transfer to San Quentin prison. He said he had herded sheep on the mesa where the girl's body was found. A lock of hair was forwarded here for comparison with strands found in Virginia's left hand.

Gerald Davidson, 60, was re-arrested in Oklahoma City after officers here asked comparison of his finger prints with those of Gerald Dorsel, a suspect in the girl slaying. Police there reported the finger print classification was the same and description of the prisoner and Dorsel were similar.

Last Call! to Grant's 25th Economy Sale

25 Years—
and the same ideas
hold true!

The same principles which W. T. Grant laid down in his very first advertisements in Lynn, in 1910, are still part of Grant Policies today.

"This is a quality store," wrote Mr. Grant. "Beside our low prices... there is a quickness of service..." "We will buy back any item that does not please you." "Not a few specials, or special days—but a store always full of specials."

So in celebrating our Silver Jubilee we were to repeat those policies—whose sincerity has been proven during these 25 years.

They couldn't be offered at a better time!

Wet feet breed SORE THROAT

**gargle with
LISTERINE**
reduces mouth germs
98%

WET feet, sudden changes of temperature, over-
exposure, fatigue, all are predisposing causes of
colds, influenza, grippes, sore throat and kindred
infections.

They weaken body resistance so that germs in the
mouth get the upper hand.

Reduces mouth germs 98%

As an aid in guarding against these troubles, medical
authorities recommend the morning and night gargle
with full strength Listerine, the safe, healing antiseptic
and germicide.

Listerine actually reduces germs in the mouth 98%.
Kills them by millions, outright! Repeated tests fol-
lowing the methods used at famous universities and
laboratories of international repute prove its amazing
germicidal power.

Under ordinary conditions of health, the night and
morning gargle is sufficient.

Gargle every 2 hours

But when you feel a cold or sore throat coming, or are already in
the grip of either, increase the frequency of the gargle.

Every two hours, authorities urge. Hold the liquid in the
mouth as long as possible so that it reaches germ-ridden surfaces.

Such frequent gargling aids your body, weakened by the cold
or sore throat, to overcome millions of disease-producing or-
ganisms in the oral cavity.

Intelligent men and women everywhere use Listerine as both
a precaution against, and a treatment for, colds, sore throat and
allied infections. Keep a bottle handy in home and office and
use it at the first symptom of trouble. Listerine Pharmaceutical Co.,

TULSA, OKLAHOMA IS DAMAGED BY BLAST

400 Quarts Nitroglycerin Explodes in Magazine; Heard 65 Miles Distant.

By The Associated Press
TULSA, Okla., March 13—Tulsa and its environs were shaken early today by the explosion of 400 quarts of nitroglycerin stored in a magazine two miles west of Red Fork, near Tulsa.

Scores of windows were broken and thousands of persons were alarmed by the shock. Officials of the American Glycerine company, owners of the explosive, said no watchman was on duty and that no lives were believed to have been lost.

They expressed the opinion a grass fire might have been responsible.

A hole 20 feet in diameter and more than six feet deep was blasted from the earth. Trees near the scene were torn into ribbons. Small bits of the steel house which covered the explosive were found miles distant. The explosion was heard at Vinita, Okla., more than 65 miles away.

Slayer of Husband Not Likely To Face Trial

NICE, France, March 13—Police investigation of the death of Fred G. Nixon-Stredinger indicated today that his widow, the former Charlotte Nash of St. Louis, who admitted shooting her husband, might never face trial for the killing.

As police were re-enacting the shooting at the home of the couple on the Promenade des Anglais, it appeared likely that the traditional French attitude toward "crime passionnel" would come to the aid of the girl who won second honors in the 1924 Atlantic City beauty pageant, particularly as the preliminary investigation was said to bear out her contention that she shot in self-defense.

Leads Police on Liquor Raid To Gain Revenge

HAMMOND, Ind., March 13—Revenge may be sweet for Albert Szymoniak. Albert is a butcher. He used to work in the shop of John Briggs, until Briggs discharged him. "I'll get my revenge," said he.

Yesterday, the police said, he did. He led the officers in a raid on the place of his erstwhile employer, pointing to a string of sausages.

Inside the shop, the police said, there was moonshine.

PROPOSE ADOPTION OF CONVENTION PLAN

Legislature Considers Supplanting Direct Primary System of Naming Candidates.

By The Associated Press
COLUMBUS, O., March 13—A convention plan of nominating political candidates would supplant the direct primary under a proposal before the Ohio legislature.

If approved by the assembly, the proposal presented yesterday by Senator Milton H. Scott, Republican of Ross county in the form of a constitutional amendment would be submitted to the voters next November.

The plan would require political parties to nominate its state and district candidates, including United States senators by convention. County conventions would be held by delegates selected by popular vote. In turn, these conventions would choose delegates to state and district conventions. The latter then would nominate congressmen and state senators, leaving the state conventions to name all state candidates from governor and United States senators down.

The state and district conventions also would select delegates to the national conventions. The Scott system differs from the old party convention plan in that it provides that 30 per cent of the electors participating in the conventions should call for a referendum should they be dissatisfied with the nominations. The assembly will adjourn its present session April 30 and reconvene April 27 to devote its time exclusively to the general appropriation bill and tax legislation to be drawn up by a special joint committee.

700 PERSONS HEAR VON CALLO IN TALK

Former Russian Nobleman Makes Sixth Appearance Here in Day.

More than 700 persons packed Central Junior High school to capacity last night to hear Baron Richard Von Callo, a national worker with the Salvation Army and a former operative of the U. S. secret service, in a program of music and a talk.

His appearance last night was his sixth in Marion yesterday. In the morning, he made two appearances at Harding High school, and entertained the Kiwanis club at noon. In the afternoon he visited Vernon Junior High school.

Last night he spoke before the Y Men club at the Y. M. C. A., and completed his visit here by entertaining at the public meeting in Central Junior.

Von Callo is a versatile musician as well as an interesting speaker. A former Russian nobleman, he speaks English fluently. His performance last night included the playing of 20 musical instruments, eight at one time.

Patriotism is the keynote of his talk. Foreign born citizens of the better class take the oath of allegiance to the flag more seriously than many American born citizens do, he said.

He related his experiences among I. W. W. groups and anarchists with an operative with the government. His ability to speak five languages was largely responsible for his joining the secret service.

Accompanying him at all appearances was Brigadier John J. Allen of Columbus in charge of the Central Ohio Division of the Salvation Army. Brigadier Allen is an accomplished cornetist and pianist. He also spoke briefly and assisted in the program.

Arthur Brisbane's Today

Continued from Page One.

It spent to pay old debts." We believe that buying new goods to the extent of a billion dollars or thereabouts will do more than anything else could to stimulate prosperity.

Paying off old debts would also help. However, the money belongs to the soldiers, and is theirs to do with as they please. What they do is their business.

Certainly it can only help the nation to pay a billion or a billion and a half to those that have earned it, and will spend it.

THE WAR DEPARTMENT yesterday announced the allotment of \$75,000,000 for river and harbor work.

The Missouri river gets the largest allocation, more than \$30,000,000. This will put a good many men to work.

Seventy-five million dollars seems a good deal of money, but it really isn't much for this rich country. Little Holland, short of land, stealing it from the North Sea by building dikes and filling in, is spending \$15,000,000 now on one single reclamation project. All depending on how wisely you use your money.

If human beings could put an end to war, with its frightful expense, that runs into billions a year with us, every swamp could be drained, every desert on earth irrigated, mosquitoes, rats and other disease-spreading creatures eliminated.

But human beings themselves are still animals, and will long cling to the chief animal pastime—fighting.

HONORS LABOR

He will sail soon for New York to hold a series of art exhibitions in the United States.

Kalish says that he finds chief inspiration for his art in American labor types, and that he likes to work in Paris because he finds greater possibilities for calm and tranquility.

NEVER WORRIES, 101

Venerable Ohioan Points Way to Long Life.

By The Associated Press
CARROLL, O., March 13—If he had worried throughout his life, George Crow would not be puffing his bair pipe here at the ripe old age of 101.

"Keep busy and deny yourself nothing except worry," is this centenarian's motto for longevity.

Most of his life he has been a farmer—and his active days in the fields over, he conjures dreams from the curling wisps of smoke his pipe emits.

Cowboy and Heiress Bride Find Way to Divorce Court

By The Associated Press.
RENO, Nevada, March 13—The romance of a New York society girl and a Colorado cowboy has led to Reno.

Barbara Monell Glaze, 26, was here today with the announced intention of obtaining a divorce from Kenneth Wilson Glaze, 30-year-old rodeo performer and harness maker to whom she was married Feb. 21, 1928.

The daughter and heiress of Am-

brose Monell, former head of the International Nickel company, who left a \$15,000,000 estate, did not reveal the basis of her suit.

"It's a matter I just can't discuss right now," said Roy W. Stoddard, her attorney.

Miss Monell's plunge into matrimony started solely circles just as she announced Newport habits at the age of 14 by swimming two miles in the surf. Her widowed mother, however, approved the bridegroom as a "splendid young man."

Glaze was a stalwart six-foot "broncho rider" cowboy, who, after seven years on the range, had purchased a one-room harness shop in Colorado Springs with proceeds of the sale of a band of horses.

Miss Monell, pretty horse-woman and sports enthusiast, recuperating in Colorado Springs, following an operation, strolled into Glaze's shop one day seeking a muzzle for a dog. Glaze welcomed her custom. They were married five weeks later. There was no honeymoon.

There was no outward evidence of marital trouble.

IDENTITY QUESTIONED IN IOWA DEATH CASE

Insurance Company Prompts Investigation of Alleged Fatal Accident.

PERRY, Ia., March 3—A theory that the burned body of a man buried here Feb. 3, as John M. Smith, Farmer-Labor candidate for governor in 1930, was not that of Smith was being investigated today at the request of insurance companies with which Smith carried \$50,000 worth of policies.

The body of the man burned beyond recognition, was found under the wreckage of a motor truck near Denison, Ia., and was identified by Mrs. Smith as that of her husband. When exhumed yesterday, it was revealed, Coroner L. H. De Ford said, that it had been embalmed before it had been burned.

Meanwhile a search for Smith was under way on the theory that he is still alive.

Dentists testified their work on Smith did not correspond with that in the mouth of the burned man.

Mrs. Smith said that at the time of the burial she believed that the body was that of her husband but that the features were not recognizable. She could advance no theory where her husband might be, if alive.

Officials said they had no indication regarding the present whereabouts of Smith, the identity of the body at Perry, or where it was obtained.

TOKYO, March 13—Japan's latest bit of royalty was christened Yori Atsuko today on the seventh day after the princess birth and shortly thereafter, in strict accordance with time-honored rites, Emperor Hirohito had duly reported the name to the spirits of the imperial ancestors.

The name was chosen from the ancient Japanese scriptures, Yori meaning obedience to heaven and Atsuko meaning generosity to those on earth.
